[REDACTED]

This is what [REDACTED] created for me on the Salt Fire in Shasta County. We'd also like the same thing done for the Dixie Fire so that CAL FIRE will have the assets with their name labels available for their operations maps.

Thank you!

Subject: Salt ED/ET Buffers

Here you go [REDACTED]
I created a 10 mile buffer of the Salt IR polygon that [REDACTED] used for this morning's map. Used that to clip the ED & ET, then buffered the results, 50 feet.
Let me know if there are any questions, or additional requests.
Thank you.
